PROFILE SUMMARY

Motivated BCA graduate with hands-on experience developing and field-validating a full-stack veterinary healthcare platform (GoRaksha – Pashu Sanjeevini) across 100+ villages. Proficient in Python, C, and C++, with practical experience in Django, database-backed web applications, and responsive front-end development. Recognized through selection processes for J.P. Morgan and Tata. Seeking an entry-level role to apply strong problem-solving, teamwork, and quick-learning abilities to real-world engineering projects.

EXPERIENCE

GoRaksha – Pashu Sanjeevini | Student Project – Development & Field Validation

Bangalore, Karnataka

- Developed GoRaksha, a web-based veterinary healthcare platform using Python, Django, and SQLite to connect farmers with nearby veterinary doctors and livestock emergency guidance.
- Conducted field validation of the platform across 100+ villages, interacting with farmers, veterinary hospitals, and veterinary department officials to assess real-world usability.
- Refined platform features from field feedback, including animal disease information and government scheme details, to strengthen farmer–veterinarian communication.
- Delivered a responsive user interface using HTML, CSS, JavaScript, and Bootstrap 5 for accessible use across devices.

PROJECTS

GoRaksha – Veterinary Healthcare Management System

Python, Django, SQLite, HTML, CSS, JavaScript, Bootstrap 5

- Enables farmers to locate nearby veterinary doctors and access livestock emergency guidance and first-aid information.
- Provides information on animal diseases and relevant government schemes to support informed livestock healthcare decisions.
- Designed as an easy-to-use digital platform to improve communication between farmers and veterinary professionals.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, PHP

Web Technologies: HTML, CSS, JavaScript (Basic)

Frameworks & Databases: Django, Bootstrap 5, SQLite, MySQL

Tools & Platforms: GitHub, MS Office (Word, Excel, PowerPoint), Windows OS

Core Competencies: Problem Solving, Teamwork, Communication, Quick Learner

EDUCATION

Bachelor of Computer Applications (BCA) — Manorama College of Computer Applications, Karnataka University, Dharwad | 2026 | CGPA: 7.9

Pre-University Course (PUC) – Science — Government PU College, Mundaragi | Karnataka PUE Board | 2023 | 71%

SSLC (Class X) — Loyola High School, Kalena Agrahara, Bangalore | KSEAB | 2021 | 89%

CERTIFICATIONS & ACHIEVEMENTS

- J.P. Morgan & Tata Selection:** Selected for opportunities with J.P. Morgan and Tata, demonstrating strong performance in the respective selection processes.
- GoRaksha – Pashu Sanjeevini Field Validation:** Conducted project validation across 100+ villages, engaging farmers, veterinary hospitals, and veterinary department officials.
